

Ambassador Spotlight

2020

Meet Marilyn Tims

About me...

How many years have you been with PCI Group?

I have been employed with PCI Group 11 years and 3 months.

What's your favorite part of your job?

My favorite part of my job is organizing my work area to make things easier. Meeting new people. Knowing that every day I come to work and give my 100%.

What is the most important attribute you bring to your job?

I think the most important attribute I bring to my job is my friendly attitude. A simple Good Morning means a lot to some people.

What is your favorite quote to live by and why?

My favorite quote is, "Always treat people the way you want to be treated," because you will receive the treatment from others by the way you treat them.

What do you want to accomplish with your role in the Ambassador program?

As an Ambassador I hope to accomplish the following: making all new hires feel comfortable when they come to work, gaining their trust to come and talk to me when the need arise, being able to respect them as an individual and also gain respect, try to achieve a relationship with them so that they are comfortable about asking me about anything and knowing that it will be confidential.

Being helpful when needed. Having the new hire to always think positive about any situation...there is some good in all bad.

Best advice for a new employee:

Come to work every day with a positive attitude and give the company 100%. Verification is an important part of your job. Try not to get caught up in the drama, just be observant and you will learn a lot about an individual.

Interesting Facts
